Address of Event: Virtual - 2020 AACC Annual Scientific Meeting & Clinical Lab Expo

AnteoTech enters high sensitivity Assay Development market built on proprietary AnteoBind™ technology.

WHAT:

AnteoTech marks its entry into the Assay Development market through the design of a high sensitivity COVID-19 Antigen Rapid Test. The test uses an AnteoBind™ activated Europium particle to enable the detection of low viral loads. AnteoTech is pleased to announce the expansion of its business to include Assay Development in addition to its existing Raw Material Supply business.

WHY:

The Assay Development market represents a key value driver for AnteoTech, enabling it to leverage its proprietary binder AnteoBind™ in the rapidly growing Point of Care IVD market. AnteoTech can deliver high sensitivity and multiplexing solutions delivered by a team of highly skilled scientists. AnteoTech's ISO13485 accreditation allows for superior assay development from design through to regulatory approval.

AnteoTech's Point of Care assay development pipeline includes a Multiplex COVID-19 Flu A/B test and a multi biomarker Sepsis test. Both tests have completed proof of concept.

WHO:

Mr Derek Thomson – CEO AnteoTech Ltd

Dr Charlie Huang – Head Life Sciences – AnteoTech Ltd

Mr Tek Ling – Manager Assay Development – AnteoTech Ltd

WHEN AND WHERE:

AACC Annual Scientific Meeting & Clinical Lab Expo

Tuesday, 15 December, 2020 at 4 p.m. (Central U.S. Time)
