CCMs effective for mental health conditions

Implementation of BHIP teams and adoption of CCM

BHIP* initiative begins

Completion of trial by 21 VA sites

*Behavioral Health Interdisciplinary Program

Mental health status

Hospitalization rates

Scale up and spread

Randomized implementation trial

Collaborative effort of researchers and policy makers led to the effective implementation of CCMs for various mental health conditions at VA centers

Are CCMs effective for large scale usage?

The Collaborative Chronic Care Model for Mental Health Conditions: From Evidence Synthesis to Policy Impact to Scale-Up and Spread
